PROFILE SUMMARY

Equipped with master's degree in international Transportation and Logistics & **2 years and 10 months** experience as Quality Engineer/Product Specialist in supply chain domain. Enthusiastic about deploying my skill set for a company providing digital solutions & driving IT transformations in business processes.

EXPERIENCE

Blume Global (A Subsidiary of **WiseTech Global**), Bengaluru

Quality Engineer | Apr 2024 – Present

- Automated UI validation for logistics web apps (Shipment Tracking, Order Management) using **Selenium WebDriver** within a **BDD/Hybrid framework** (Cucumber, Java, TestNG) implementing **Page Object Model (POM)**
- Proficient in Java programming concepts (OOPs, Collections, Exception Handling).
- Analysed real-time data using **MongoDB** and **MySQL**, identifying critical patterns and trends that improved estimated delivery prediction accuracy by ~ **5%** and improving **logistic feasibility calculations**.
- Performed **API testing** using **Postman** and **Swagger**, validating **REST endpoints (GET/POST/PUT/DELETE)** and Kafka/JSON payloads to ensure seamless integration between **supply chain modules**.
- Reduced test data creation time by 90%** by implementing reusable **"Excel/CS to JSON" converters** along with automated Kafka message posting to test IOT alerts module.

Associate Analyst | Jun 2022 – Mar 2024

- Spearheaded **hyper care** and **product release support** activities, including **test effort estimation**, **test planning**, and crafting detailed **project synopsis documents**, ensuring smooth post-release transitions utilizing tools like **Jira** and **Confluence**.
- Acted as a liaison between the **Product team** and **Development team**, managing communication and prioritization of **critical scope tickets** based on **Agile** methodology, reducing delays in project timelines.
- Received **the Medallion Award** for Outstanding Performance and Dedication in Q3 2022.

EDUCATION

MBA - International Transportation & Logistics, Indian Maritime University, Chennai

Dec 2020 - Jun 2022 | 78.06% CGPA

- As one of the Placement Team Coordinators, led the coordination of online & on-campus placement drives, facilitating efficient interactions between students and potential employers.
- Operations Management Intern (Sept 2022 – Oct 2022) | DP World, Chennai*

BE - Mechanical Engineering, Jeppiaar Engineering College, Anna University, Chennai

May 2015 - Apr 2019 | 68.8% CGPA

- Project Intern (Dec 2018- Feb 2019) | Renault Nissan Automotive India PVT LTD*

SKILLS SUMMARY

- | | | |
|----------------------|------------------------------------|---------------------------------|
| • Manual Testing | • Cucumber BDD | • Test Case Design |
| • Automation testing | • API Testing (Postman) | • Problem Solving |
| • SQL | • CI/CD (Jenkins) | • Report Generation |
| • Data Analysis | • Defect Tracking (Jira, TestRail) | • Team Coordination |
| • Core Java | • Data Analysis | • Supply Chain Management |
| • Selenium WebDriver | • Project Management | • Communication & Collaboration |
| • TestNG | • Agile Methodology | • Problem Solving & Analysis |
| • Page Object Model | • Presentation Skills | |
